ICES Open-Ended Items

What are the major strengths of the instructor/course?

- Humberto is always well-prepared and responsive throughout this course.
- Humberto is a nice and friendly person, who tries to teach to the best of his abilities.
- He is super patient and very approachable. He understands the material very well and is able to answer questions. He offers very good advice on preparing for the class. He listens to feedback.
- -
- The TA was so nice, smart, and dedicated. Best TA!
- The TA would make sufficient time available to the students to make sure the material was understood. I found questions covered during the TA teaching session to be really helpful for the exam.
- Humberto cares about teaching and during discussion he made his best effort to cover the material from class by solving problems and providing with intuition and clear steps on how to solve problems. He made sure to incorporate student's feedback when it was provided. He would make sure student's questions were answered during the discussion and during office hours. The TA was also willing to provide an additional final exam review session even after the semester had ended. He also graded assignments in a timely manner. I recommend this TA to continue teaching this course.

What do you suggest to improve the course?

- More detailed solutions to TA questions may be suggested.
- Maybe the course should be designed as such that it does not feel so rushed all the time.
- It would help if you were more prepared with the examples you do during class. When learning for the first time, it is difficult to follow along when mistakes are made. I think if you rehearsed your examples in advance a bit more/had them written out it would be easier to follow along. I think you can make better use of the time in the class. Nearly every class we are finishing an example after the class time is up. When you begin rushing, the examples are difficult to follow and your handwriting is hard to read!! Maybe giving the materials for us to look over at home but trying to do less during the class.

- The current format seems great!
- Post discussion handouts on Canvas at the beginning of the semester. Also, make sure office the office hours do not overlap with other Professor's office hours (specially for students in the department of Agricultural and Consumer Economics).

Please comment on the grading procedures in the course.

- Fair enough.
- Grading procedure was fair.
